**DISCOVER THE BEAUTY OF THE BALTICS**

July 28 - August 10, 2025  
Led by Local Guides

Join us to a unique and young destination. The cities of the Baltic countries were some of the wealthiest and most important cities in medieval northern Europe. Estonia and Latvia can boast a glorious Hanseatic and Livonian legacy, while Lithuania was a vital component of the biggest state in medieval Europe, the Polish-Lithuanian Commonwealth. However, for most of the 19th and 20th centuries interrupted only by the interwar period, the Baltic countries were forgotten treasures incorporated into Imperial Russia and later into the Soviet Union. Since the Baltic countries regained their independence at the beginning of the 1990s, the cities have regained their past beauty and glory and have recaptured their natural position on the European map. This tour takes you on a thrilling journey through the three Baltic countries' millennium of history with remarkable contrasts between the medieval past and the modern present and with plenty of beautiful unspoiled countryside in between.
