

I have travelled to every country plus overseas territories, archipelagos, both North and South poles.

It was Spiekermann Travel Service who made it possible for me to visit Saudi Arabia when the kingdom was not issuing tourist visas. Since then Spiekermann has helped me get to many hard-to-get African countries. They provide well qualified and knowledgeable guides who gave me insight into their culture, traditions, and history of these countries.

Best of all Ihab made sure we got back home safe from some of these war-torn countries.
